

JUSTIN BULOT

AI Developer

SUMMARY

AI Developer with a strong foundation in full-stack web development, specializing in intelligent, responsive applications built with Django, Flask, and Tailwind CSS. Experienced in integrating machine learning models and AI-driven features to elevate user experience, automate workflows, and unlock data-driven insights. Skilled in clean UI/UX design and seamless human-AI interaction. Passionate about building elegant, impactful solutions that combine technical precision with real-world relevance.

Experience

Artificial Intelligence Developer Intern
Reed Elsevier PH

Jan 2025 - Jul 2025

- Built AI-enhanced web applications leveraging Django and Flask frameworks.
- Measured software performance using pre-agreed metrics.
- Developed and implemented new software applications, enhancing company productivity and client satisfaction.
- Applied expert problem-solving skills to tackle complex software challenges, maintaining high standards of quality and innovation.
- Tested software solutions following standardised procedures, collating results to formulate actionable insights.
